Item	Title	Detail
1	Meetings attended	The weekly Fabrication Update Conference Call was conducted at 09:00 today.
2	Other important observations	Throughout the day I completed drafts of the Team China CWR / HSR Review Process flowchart, the Team China NCR Process Flowchart, and the SAS Weekly Progress Summary Report.
3	Key conversations	At approximately 16:30 I met with Keith Devonport, Jason Tom and Alistair Melville at the Team China Pudong Office to discuss the Contractor's proposed methods of performing the longitudinal stiffener welds on the tower mock-up. It was agreed that the Contractor may be allowed to proceed with a demonstration of the proposed procedures. It was also agreed that CT should emphasize to the Contractor that the procedures used to fabricate the mock-up must be repeatable in production.
